OUR PHILOSOPHY

Our company is not only built on the aesthetic of our workplace but also on the team's desire to learn and improve continuously. At VUUN, we believe that communication between ourselves and our clients is the key to success!

OUR MISSION

To handle the needs of our unique customers from end to end and contribute with our expertise.

OUR VISION

We are determined to write a success story together with our experience in the cornerstones of businesses.

OUR GOALS

We are transforming Turkey's production and workforce quality into value-added services.

New Showroom and Pattern shop released in Istanbul

ABOUT US

VUUN is the initiative of a software engineer who has implemented dozens of successful projects globally since 1999 in the information technology business. NOC LTD (2008), BEDSCCLICK (2016), Doga Mineral LTD. (2006), Doga Medikal LTD. (2020), and now we are excited to add VUUN LTD (2021) to our group.

We are determined to write a new success story together with our experience in the cornerstones of businesses such as Project Management, Team Leadership, Cash Flow Management, R&D, and Customer Relations Management with our expert staff and business partners.

We continuously realized investments and extend our company in different sectors. To this vision, we have invested in an activewear producer which was established in 2015 in Türkiye and started producing our unique products under VUUN Tekstil San. ve Dış Tic. A.S. in Türkiye since 2021.

At VUUN we have a diverse team across Turkey and the UK with expertise and experience not only in the textiles sector but also in a vast range of other industries. This diversity and breadth of experience bring fresh ideas and perspectives which make us unique and better equipped to service our client's differing requirements.
